- (1) The Food Bill 2020, if enacted, will repeal and replace the Food Act 2014.
- (2) The Food Act 2020 establishes the legal framework to regulate the manufacture, sale, import and export of food for commercial purposes, to guarantee food safety and fitness for consumption, and to promote fair trade practices in the food sector.
- (3) The Food Bill 2020 builds on the legal framework established by the Food Act 2014, but incorporates specific revisions intended to achieve the objectives shown below.
- (4) The Food Bill 2020 was developed after work was carried out by the Ministry responsible for food in 2016-17 to develop Food Regulations under the Act. This review highlighted a number of specific issues in the current Food Act which needed to be addressed before the Food Regulations could be implemented effectively. The provisions in the Food Bill 2020 are therefore intended to align with Food Regulations.
- (5) The objectives of the Food Bill 2020 are to –
 - (a) clarify the functions and powers of the National Food Authority;
 - (b) re-constitute the membership and powers of the National Food Council;
 - (c) enhance the power of the Authority and Minister to obtain information under the Act;
 - (d) formalise links between the Ministry and key government Ministries such as the Ministry of Health, Ministry of Trade and Economic Development; and Ministry of Police;
 - (e) formally establish the Food Division and provide for their administration and enforcement powers;
 - (f) strengthen links between the Ministry responsible for food (Food Division) and the Ministry responsible for customs (Customs Department) for effective implementation and enforcement of regulatory requirements at border entries; and
 - (g) ensure that stakeholders remain informed about the work of the Authority, including information on licensed food premises.
- (6) New governing bodies established under the Bill are –
 - (a) the Food Division – responsible for the day-to-day implementation, administration and enforcement of the Bill;
 - (b) the Research Unit – responsible for conducting research on issues referred to it by the Food Authority and for consulting with stakeholders; and
 - (c) the National Food Emergency Committee – responsible for key decisions and providing recommendations to the Food Authority during a national food emergency.

- (7) Changes have been made in relation to existing bodies, including -
- (a) the National Food Council – which is an existing body, but its members and functions are revised under the Bill; and
 - (b) the Food Emergency Committee – which is also an existing body, but its members and functions are formalised under the Act.
